

THRASHERS HQ — HOW TO USE

Plain-English playbook for Tyler & the Thrashers parent crew. Covers every tab, plus phone setup, backup, and privacy.

Live page: tyler.quadfang.com

START ADD THIS PAGE TO YOUR PHONE

First job — make this one tap from your home screen so you can pull it up rink-side without typing the URL.

- **iPhone (Safari):** tap the share icon (square with arrow) → **Add to Home Screen** → name it "Thrashers HQ" → Add.
- **Android (Chrome):** tap the three-dot menu (top right) → **Add to Home screen** → confirm.
- Now you have a one-tap shortcut. The page works once it has loaded the first time, even if signal is weak.

Heads up: all your data lives in this browser only. Nothing is sent to any server. That means: if you clear your browser cache or wipe the phone, your roster and custom events vanish. Use the Backup button before you ever do that.

TOURNAMENT EVERY GAME, COLOR-CODED BY AGE GROUP

This is the read-only big picture. Two tournaments are pre-loaded: **Lloydminster Brute Invite** and **Tradition Lives 2026** (Red Deer, May 15–18, all 5 Thrashers age groups).

- Each card shows the day, start time, opponent, and venue. The colored stripe on the left tells you the age group: **U11**, **U13B**, **U15B**, **U15F**, **U17B**.
- The little square next to the time is the opponent club's logo (auto-pulled). If a logo can't load, you see colored initials instead.
- You can't edit these from the Tournament tab — they're the official schedule. Add your own events (practices, dryland) under the Schedule tab.

SCHEDULE ADD PRACTICES, DRYLAND, ANYTHING NOT IN THE TOURNAMENT

- Pick a date, time, type, and short title. Hit **Add**. Done.
- Types: Practice, Game (Home), Game (Away), Dryland, Team Meeting, Team Bonding.
- To remove an event, tap the **X** on its card.

Anything you add here also flows into Duties (so volunteers get assigned to your home games) and Slideshow (so you can build hype reels for any game).

ROSTER

PLAYERS, PARENTS, CONTACT INFO

- Add each player: jersey number, name, position. Add a parent name + phone for each.
- Used by Duties (parent volunteer rotation) and Comms (group text drafts).

TEAMLINKT

COPY A CLEAN SCHEDULE OUT

Three buttons that build a paste-ready text block of your schedule.

- **Tournament Only** — just the tournament games (for the parent group text).
- **Custom Only** — your own added events (practices, dryland).
- **Everything** — combined.
- Tap **Copy** → paste into TeamLinkt, email, or your group chat.

GRAPHICS

MATCHUP POSTERS & FINAL-SCORE GRAPHICS

Generates a 1200×675 PNG that fits Instagram, Facebook, and TeamLinkt feeds.

- Pick a game from the dropdown.
- Pick a type: Matchup Poster, Final Score (WIN), Final Score (LOSS), or Game Day Hype.
- Hit **Generate** → preview shows on the right.
- **Download PNG** for socials, or **Download SVG** for crisp print.

Long opponent names (like "Cranbrook Black Wolves U17") auto-stack onto two lines so they don't crash into the "VS" in the middle. Short names render full size.

SOCIAL

CAPTIONS, HASHTAGS, POST TEXT

- Pre-built caption templates: Game Day, Final Win, Final Loss.
- Fill the blanks (opponent, score, star of the game) → tap Copy → paste into Instagram or Facebook.

COMMS

PRE-WRITTEN TEAM TEXTS

- Reminder-style group text drafts for: heads-up before game day, post-game thank-you, schedule-change alert.
- Tap Copy → paste into your team group text.

 PRACTICE **PLAN A SESSION**

- Block out drills, dryland, scrimmage time.
- Saves to your phone — pull it up at the rink while running practice.

 DUTIES **PARENT VOLUNTEER AUTO-ASSIGNER**

Home games need 4 jobs filled (Score Sheet, Penalty Box, Shot Clock, Game Sheet). Away games need 2. Duties does the math.

- Round-robin fair rotation across your roster. Same parent doesn't get hit twice in a weekend.
- Built-in **sms**: links — tap a name and your phone opens a pre-written text to that parent.
- Manually re-assign if a parent can't make it — Duties picks up the gap next round.

 SLIDESHOW **4-SLIDE VERTICAL HYPE REEL PER GAME**

1080×1920 (Instagram Story / TikTok format). Pick a game → builds 4 slides automatically:

- **Hype** — bold "GAME DAY" splash with team name.
- **Matchup** — Thrashers vs Opponent, US / THEM labels, big VS in the middle.
- **Time / Place** — when and where.
- **GO Thrashers!** — closer.
- **Download all** — saves all 4 slides as PNGs in one tap.
- **Download one** — pick a single slide.
- Long opponent names wrap onto two lines automatically.

 WATCH **SCHEDULE-CHANGE LOG + PARENT ALERT**

- When TeamLinkt or the league moves a game time, log it here with a one-line note.
- Watch builds a clean parent-text alert with the old time, new time, venue, and reason.
- Tap Copy → paste into the team group text.

Auto-monitoring of TeamLinkt for changes is a Phase 2 feature — needs a server to run between visits. Right now Watch is manual log-only.

 TRIP KIT **PRE-TOURNAMENT TRAVEL CHECKLIST**

- Standard tournament-trip packing list. Editable.
- Phone-friendly — open it the morning of departure, tick items as you load the car.

SETUP

TEAM COLORS, NAME, SETTINGS

- Set your team's two colors — they drive the gradient on every Graphics + Slideshow image.
- Short team name (e.g. "GP Thrashers") used on graphics.
- **Backup button** — saves a JSON file with your full roster + events. **Email this to yourself once a week.**
- **Restore button** — load a backup file back into the page.

Important: if you switch phones or browsers, your data does NOT travel automatically. Backup → email file to yourself → restore on the new device.

PRIVACY

WHERE DOES MY DATA GO?

- Nowhere except your browser. There's no account, no login, no server collecting roster info.
- The page is hosted on GitHub Pages (static HTML / CSS / JS). It's served over HTTPS so the connection is secure.
- Team logos shown next to each game come from a Google favicon proxy — your browser fetches them at load time, no data sent the other way.
- Clearing your browser's site data for tyler.quadfang.com erases your roster + custom events. Always Backup first.
